## 19<sup>th</sup> Annual Conference of Neurology Chapter of IAP

26<sup>th</sup> - 28<sup>th</sup> July 2019,  
Hotel Park Hyatt, Hyderabad

**Dear All,**

Greetings from Hyderabad!!

It gives us immense pleasure to announce “Neuro Pedicon 2019”, the 19th Annual Conference of Neurology chapter of Indian Academy of Pediatrics, to be organized in Hyderabad from 26th-28th July 2019. With rapid strides of “Pediatric Neurology” as a sub speciality in the past five years has prompted us to organize another academic event to spread the knowledge.

The scientific program for this year conference has been planned in such a way that, there is more than something for everyone looking after children with neurological disorders. The workshop on “Acute care neuroimaging and EEG” is primarily intended for Pediatric practitioners and Pediatric trainees aimed at interpretation of CT, MRI and EEG-the cornerstone of neurological diagnostic armamentarium. The workshop on “Management of Neurometabolic disorders” is aimed at Pediatric Neurologists, Neonatologists and Pediatricians who wish to learn more about management of IEMs, beyond the diagnosis of these disorders.

The two-day conference has been planned with an aim of engaging all the delegates with parallel sessions on day 1 and combined sessions on day 2. The topics shall include updates on common neurological and developmental disorders in children.

All work and no play can make us exhausted. So, we have planned some great food and entertainment as well.

All in all, we hope to make this conference an enriching experience in terms of scientific rigour and the practical value in terms of improving care of children with neurological problems.

**The Organizing Committee cordially invites you to Hyderabad.**
